

Carton Live Storage

Live Storage Order
Picking Solution

First in, First out.

Carton live storage.

Your business:

You arrange your access on a first in, first out basis. You need to hold more inventory at the pick face whilst reducing replenishment frequency. You hold a large number of unique items, that are picked in small quantities and are not suited to palletisation.

Our solution:

Carton live storage is a gravity-fed order picking system designed to increase efficiency while decreasing required floor space. It delivers full carton and split carton picking, with low capital outlay and operating costs, and its more orderly picking system saves labour. Pickers work in the front aisle while replenishers work in the back. First in, first out rotation in any lane is ensured. In high-volume situations, a pick-and-put-to light increases speed, efficiency and accuracy.

The vital statistics:

Selecta Flo:
Standard bed depths
1520mm, 2320mm, 3020mm

Standard bed widths
1524mm, 2591mm, 2743mm

Loads single bay racks
2000 to 5000kg per bay

Multibay racks
2800 to 6800kg per bay

Roller Flo:
Roller widths (mm) / max
handling load width (mm)
152/228, 229/344,
305/458, 381/572

Standard track lengths (mm)
/ overall frame depth (mm)
1946/2057, 2327/2438
2937/3048

Variable roller pitch to suit
needs.

Left to right adjustability of the tracks to suit individual load sizes.

Pick from the front.

Fill from the back.

Selecta Flo:
High density
and efficiency.

Lead in guides ensure pick positions are clearly identified and maintained when goods are being replenished.

Full-length dividers can be fitted to ensure stock doesn't track sideways as it travels down the bed.

Beds are mounted directly to uprights eliminating the need for additional beams.

Flush bed length configuration.

Shallow tray drop out configuration.

Tiered bed length configuration.

Deep tray drop out configuration.

Suited to heavier applications.

Roller Flo;
Carton live
storage for your
existing racking.

**Create small
parts picking
environment.**

**Easily fitted to
existing pallet
racking beams.**

**Roller Flo provides
a robust carton
live storage
solution. It provides
an adaptable
alternative to
pallet or split
case picking,
depending on your
requirements.**
