

# EasyFit Wire Baskets

## Product overview

The EasyFit Wire Baskets are a range of quality baskets designed to greatly enhance the ability to store sterilised medical supplies. The baskets (W5, W10, W20, W30, W40, W60) are designed to interchange with the Dexion Maxi Bin range (P5, P10, P20, P30, P40, P60), which is used extensively throughout medical facilities.

Each basket has a double wire on the top edge to ensure there are no sharp edges. The EasyFit Wire Baskets fit onto the Dexion louvred panel and can easily be removed for restocking or relocation of stored items.

The EasyFit Wire Basket has a fine mesh of 8 x 8mm, which is more effective in retaining smaller items than larger meshed baskets.

Warranty ranges from 3 yrs to 10 yrs depending on the finish and application.

## EasyFit Wire Basket Dividers

The EasyFit Wire Basket dividers are offered to create compartments in the large sized baskets; W30, W40 and W60. There are no limitations to the number of dividers that will fit into the baskets, other than practicality.
